Memorandum

Date: October 1, 2013

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Approving Significant Modification to Description of Building Better Communities General Obligation Bond Project No. 143 for Miami-Dade Transit

Recommendation

It is recommended that the Board of County Commissioners (Board) approve a significant modification to the description of Building Better Communities General Obligation Bond (BBC GOB) Program Project No. 143 – "Metrorail Bike Path" listed in Appendix A to Resolution R-914-04 following a public hearing.

The significant modification to Project No. 143 will amend the project description to better serve the needs of the community and enhance the original objectives of the project.

Scope

The project is located in Commission Districts 5 and 7, which are represented by Commissioner Bruno A. Barreiro and Commissioner Xavier L. Suarez, respectively.

Fiscal Impact/Funding Source

There is no fiscal impact to the existing BBC GOB Program allocations as a result of the modification.

Track Record/Monitor

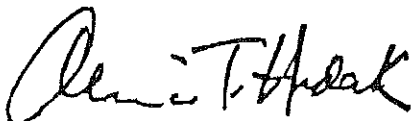

Miami-Dade Transit (MDT) will implement the project and the Office of Management and Budget will monitor the projects.

Background

The original plan for BBC GOB Program Project No. 143 involved miscellaneous surface and intersection improvements to the Metrorail Bike Path section from SW 67th Avenue to the south bank of the Miami River with an allocation of \$1.4M (Original Project Scope).

The City of Miami's "Miami River Greenway Streetscape Project" is building pedestrian and bicycle paths along the north and south banks of the Miami River. In order to provide additional access points to the walkways, the Miami River Commission requested that MDT restore a section of the Metrorail Bike Path located between the north bank of the Miami River and SW 3rd Street. The new proposed plan is to add to the scope of work a section of the Metrorail Bike Path between SW 3rd Street and the north bank of the Miami River (Additional Project Scope).

In order to maximize Project No. 143's budget, MDT will have the option of bidding the Additional Project Scope as an alternate when the Original Project Scope is bid, and if funding is available within the original funding allocation, add the Additional Project Scope to the contract for the Original Project Scope.
